

HYDROLOCKER®

By **HYDROHOIST®**

HydroLocker™ offers refreshing designs with unmatched durability which compliment today's homes, docks, and marinas. Designed to withstand harsh marine environments, built with tough UV stabilized polyethylene construction, these rotomolded HydroLockers are impact resistant and virtually maintenance free. Both HydroLocker designs accept standard padlocks and are the most convenient, user-friendly lockers to securely store your belongings.

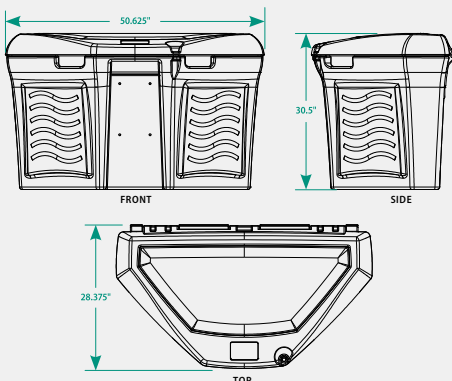

50" TRIANGLE

STANDARD FEATURES

- 14 cubic-foot storage capacity
- Unique raised edge resists water penetration
- Recessed back for water riser and hose storage
- Power Option with EnergyMate®

Integrate an **EnergyMate®** with your **HydroLocker** to create a unique utility center with power and water connections.
